

RGB180 BT Work Positioning c/w Polestrap

Accredited to: EN 358

Material: 45mm water repellent polyester

Fittings: High tensile alloy steel

Weight: 1.15kg

Features: Work positioning strap, 1 x side Dee, padded back support

Max Arrest Force: **WORK POSITIONING ONLY**

The **RGB180BT** is a work positioning belt. This belt is fitted with an integral work positioning strap that can be passed around a pole or similar structure and clipped back onto the remaining side D ring. The Work Positioning strap is fully adjustable and is fitted with an anti abrasion wear pad and double action safety snap hook.

The back pad provides lumbar support.

It is important that a client understands the difference between fall arrest and Work positioning / restraint before using this item.
